ISAG Parentage DNA PANEL SUBMISSION DNA analysis is required for the Sire and the Dam of TMPR registered litters. This DNA analysis is kept with the dog's record and may be used for verifying parentage of the dog's offspring should it ever be needed. TMPR accepts a standard ISAG Parentage DNA panel report that can be verified by the lab completing the test. This submission form must accompany the copy of the report along with the $15.00 USD fee for submission to:

Tibetan Mastiff Preservation Registry
PO Box 170
Augusta, MI 49012 USA
